## Introducing our EXOACM Enclosure

Our new enclosures made of aluminum composite material are taking gen-set enclosures to a new level. The sleek design and customizable finish make for an attractive package. Made with an extruded aluminum exoskeleton, our system allows for straighter, cleaner edges.

## Benefits of EXOACM "The Next Generation"

Not only are our new enclosures more attractive, our aluminum composite has many additional benefits. Some of those being: Stronger, Lighter, Quieter, and Maintenance Free. This design can also help you meet your customer's more demanding requests, such as: High Wind Resistance, Better Sound Attenuation, Fire Resistant Materials, and more! [Learn More](#)

## CUSTOMIZED SOLUTIONS To Fit Your Needs

Here at Design by Initiative we know first hand that every project is different. That is where the motivation for our highly customizable enclosures comes from. We are able to design the enclosure that you need in order to meet the specifications of your customer, no matter what the challenge may be. [Learn More](#)
